

InsideGNSS

GPS | GALILEO | GLONASS | COMPASS

Your gateway to the future of GNSS engineering

2013

MEDIA PLANNER

“Building global information channels to the worldwide community of GNSS engineering, policy, and practice.”

► **Most Influential**

The “Must Read” GNSS journal, featuring the most influential thought leaders in the GNSS industry. *Inside GNSS* is the only publication that strictly targets GNSS engineers, products designers, system integrators, high-precision users and GNSS program and policy leaders around the world.

► **Unparalleled Reach**

The GNSS business is truly a global marketplace. Benefit from exposing your ad message to the largest international reach available. *Inside GNSS* delivers 25% more total reach and almost 10 times the international reach compared to all other GNSS industry journals.

► **Superior Buying Power**

Inside GNSS readers are your best prospects and your future customers...Message decision makers as they select GNSS solutions in the R&D cycle. We understand the GNSS acquisition process and the program cycles driving those purchases, delivering timely and relevant content to those who specify, influence, and buy.

Inside GNSS has the experience, perspective, and knowledge to make sense of complex technical GNSS issues in the context of the *Inside GNSS* Design Engineering and Integration EcoSystem—reporting the development, integration, and deployment of positioning, navigation, and timing capabilities with their rich potential to drive economic value.

» Our Media Platform

Inside GNSS Magazine

FEATURE ARTICLES

Case studies of product design, platform integration, system development, and application of GNSS and related technologies.

THINKING ALOUD

Commentary from Glen Gibbons, editor of *Inside GNSS*

WASHINGTON VIEW

Covers U.S. policy and program issues involving the Global Positioning System and other GNSSes.

WORKING PAPERS

A regular column chronicling advances in the science and technology of space-based positioning, navigation and timing.

GNSS SOLUTIONS

A refereed column in which experts and readers answer technical questions from other readers.

360 DEGREES

News about GNSS from around the world.

INDUSTRY VIEW

Company and industry news items.

TIMELINE

Calendar of major conferences and events.

GNSS INSIDE

New Products

HUMAN ENGINEERING

Profiles of accomplished or rising engineers in industry, academia, NGOs, and government.

GNSS HOTSPOTS

GNSS data points and factoids to amuse and inform.

GNSS WORLD

News analysis of GNSS programs.

REVIEWS

Experts review new books and multimedia.

Inside GNSS Digital Edition

Complete contents of print edition with supplemental material; available for on-line browsing or as a downloadable, full-function PDF.

Inside GNSS SIGNALS E-Newsletter

Reportage and analysis with a top-level perspective on the world's GNSS programs, policies, and technology.

insidegnss.com Website

With more than 30,000 visits and 100,000 page views per month, traffic on our website is growing at the rate of 50% per year.

Custom Web Seminars

Interactive education for the GNSS design and integration community.

» Superior GNSS Journalism

- *Inside GNSS* readers recognize our editors, contributors, and advisors for their work in the industry, as well as in the magazine.
- [GNSS leaders](#), [researchers](#), and [developers](#) advise us as members of our [Editorial Council](#).
- Our [expert news commentary](#) and [analysis](#) is a "must read" for [industry executives](#) and [military](#) and [government decision-makers](#) around the world.
- An [independent](#) company, we provide [unbiased](#) and [accurate coverage](#) of all GNSS programs.

EDITORS

Inside GNSS editor **Glen Gibbons** has covered the global satellite navigation system full-time for 22 years. He is managing partner of Gibbons Media & Research LLC and lectures and writes on the international business and policy aspects of satellite navigation.

"Working Papers" column editor **Prof. Dr.-Ing. Günter Hein** is head of the European Space Agency's Galileo Operations and Evolution, a member of the European Commission's Galileo Signal Task Force, and founder of the Munich Satellite Navigation Summit.

"GNSS Solutions" column editor **Dr. Mark Petovello** won the 2006 Early Achiever Award from the Institute of Navigation for his work with GNSS and systems integration. He is an associate professor at the University of Calgary Department of Geomatics Engineering.

Dee Ann Divis writes the "Washington View" column for *Inside GNSS* magazine. She has covered GNSS and the aerospace industry since the early 1990s, writing for *Jane's International Defense Review*, the *Los Angeles Times*, *AeroSpace Daily* and other publications. She is assistant managing editor, news, for the *Washington (D.C.) Examiner*.

SALES & BUSINESS DEVELOPMENT

A publishing industry veteran, sales & business development director **Richard Fischer** was group publisher of a GPS and geospatial magazine franchise and a former VP/GM for a leading U.S. media company.

Led by Glen Gibbons, an industry veteran with 22 years covering GPS, GLONASS, Galileo, Compass and related systems, the company offers GNSS-focused custom publishing & consulting, market research & marketing communications, audience identification & targeting, and other services.

Gibbons is founding editor of *GPS World*, *Galileo's World*, and *Inside GNSS*. He has a B.A. degree in political science from Willamette University (Salem, Oregon USA) and an M.A. from the University of Oregon School of Journalism. He received the 2003 Norman P. Hays Award from the Institute of Navigation (U.S.) in recognition of outstanding encouragement, inspiration, and support contributing to the advancement of navigation.
